Who we are/What we do

Changing Lives and our partner A Way Out provide support to women with experience of the criminal justice system in Redcar and Cleveland. We provide services in a female only environment which support women to raise their self-esteem and aspirations by offering opportunities to make informed choices.

This project is just one part of a range of exciting and relevant services that we deliver. We hope that you will find our services useful and inspiring in supporting you to achieve your potential.

In this leaflet, you will find more information about how we work with you and your Probation Practitioner.

The main aim is to assist you to establish a healthy, positive lifestyle by building on your strengths to achieve your goals.

When your Probation Practitioner referred you, they suggested areas that we could help you with. At your first appointment with us, we will ask you about how things are for you now, what support needs you have and your goals and aspirations. We will then make an Action Plan so that you and your Probation Practitioner know how we plan to support you.

We offer a combination of group sessions and one to one support, tailored to meet women's needs. We call these Workshops, see pages 4-6.

We work closely with other agencies who offer support with parenting, drugs and alcohol, employment/training/education and much more. Your Specialist Women's worker can help you access these services.

You will find the name and phone number of your Worker at the back of this leaflet.

Quotes from previous participants

We are confident you will benefit from participating in the Women's hubs. Here are some comments made by women who have attended previously or who have been supported by A Way Out:

'Just coming to the hub was at first a reason to leave the house. I really enjoy coming each week.'

'I'm due off probation next week and have done really well come so far...the women's group have made me feel comfortable to be able to talk and believed in me.'

In relation to the drug and alcohol awareness session – *"I learned things I never expected. The session was useful."*

After referring a woman to a mental health service – *"Can we still stay in touch? This is the first time I've ever engaged with someone. When I went through everything (DV and children being removed) I refused help and tried to get through it alone, now I'm ready to accept help."*

'All the staff are fab 😊 I love coming here.'

'I had register with a new Dr during Lockdown and was told I had to do it all on the computer....I don't have a computer and my phone doesn't let me do stuff like that. My support worker helped me with this...not sure what I would have done without her help...I probably wouldn't have had a Dr.'

"I feel really motivated after I've spoken to you, it really helps with my low moods."

"I am getting there, I feel amazing, I don't remember when I last felt so content, safe and looking forward to the future. I wouldn't be here now if it weren't for AWO, we owe you all everything, thank you from the bottom of our hearts".
