

About Us

New Dawn New Day is a specialist organisation which has been working with women for 30 years. We've come a long way since we were formed by Braunstone residents in the late 1980s, but our aim remains the same

Creating a brighter future for women

Nowadays, our work focuses on women affected by trauma, violence and abuse. We provide a specialist trauma-informed, person centred and holistic approach to change women's lives. We are inclusive, and work with women from a diverse range of backgrounds with various, often complex needs

What do the women who use our service say?

'I'm so glad I made the first step and got support'

'I didn't realise so many other women had been through the same things'

'I feel like I'm finally being listened to'

'I'm taking control of my own life'

'I feel like me again'
